
Gallery Wraps

Our Canvas Gallery Wraps provide a beautiful alternative to traditional framing.

Nettle Creek's Gallery Wraps are not a sprayed-on imitation, but REAL "Kodak Endura" silver based photographic emulsion which has been painstakingly stripped, then bonded with heat and pressure to high quality canvas. We then wrap the bonded canvas around specially prepared Gallery Stretcher Frames so that 1-1/2" of the photograph's edges are visible on the sides of the frame.

Gallery Wraps come complete with finished backing paper and all necessary hardware, ready to hang.

This is truly an exceptional product.
